## Elegance and character in executive spaces

At the crossroads between home and office, the KARL range draws inspiration from residential design to reinvent professional spaces.

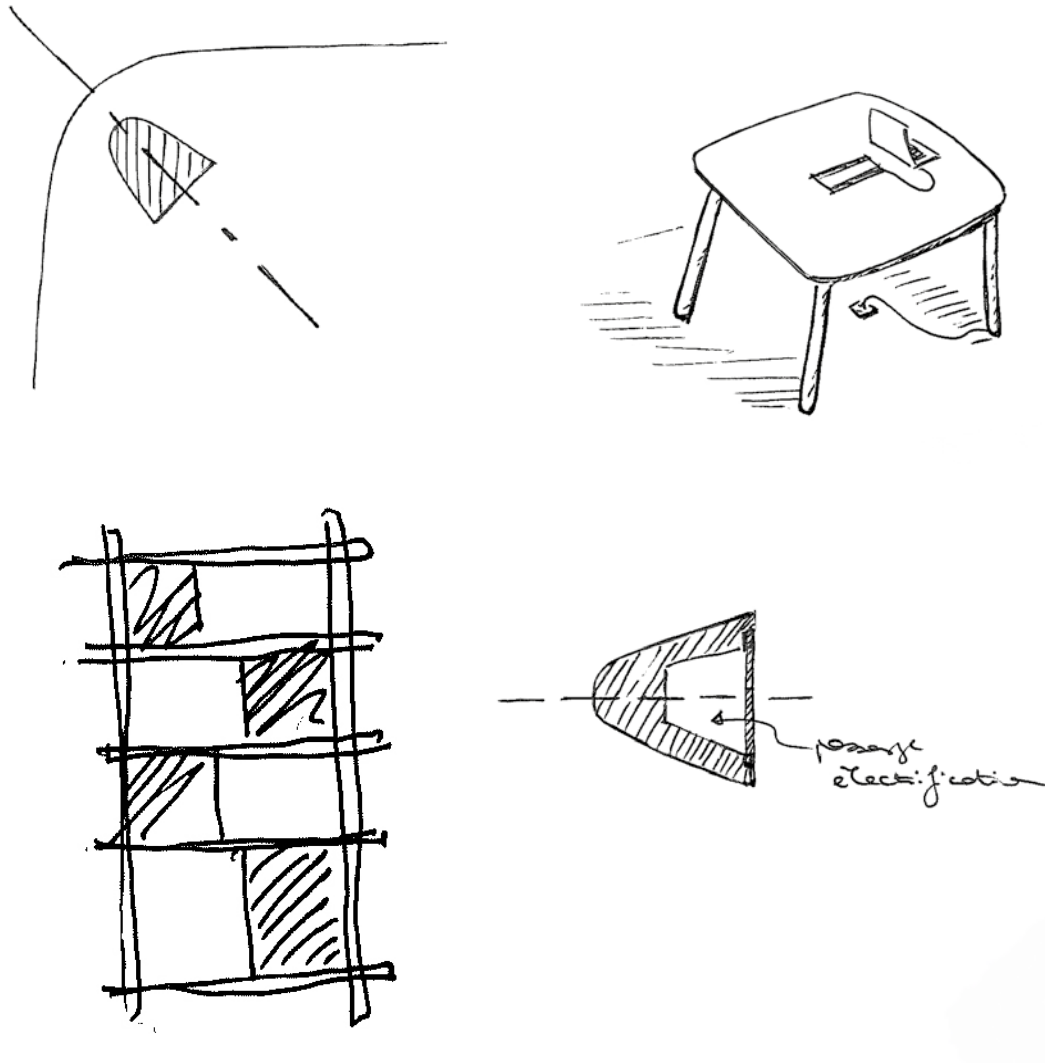

Its clean lines, balanced proportions, and the use of elegant materials such as solid oak create a warm and welcoming atmosphere.

KARL offers executive and meeting spaces that echo the codes of home living, while retaining the rigour and demands of professional furniture.

# Karl

Created by the EOL Design Studio

« In designing Karl, we aspired to give it a strong identity.

To achieve this, we sought to move away from the conventional language of office furniture by giving it soft shapes, warm materials, and intuitive connectivity interfaces

Pauline Codron  
Art director EOL

Inspired by the history and values of French design,  
**the Design Studio** is a team of experts made up  
of an art director, product designers, and interior architects.

Their missions?

- › Imagine, design, and create EOL products
- › Advise you in your space planning project: listening, analysing, creating 2D or 3D plans
- › Monitor trends actively to create a space that reflects your identity

Need help bringing your project to life? Contact us!

## Leading and collaborating with elegance

With distinction and uniqueness, KARL provides an executive space designed to decide, welcome, and inspire.

An elegant desk and a meeting table for discussions with colleagues are paired with coordinated storage units, creating a refined environment where every detail enhances the layout.

## Strengths

### Space planning

#### Variety of uses

- › For both executive offices and meeting rooms, KARL is ideal for fitting out decision-making spaces with elegance.
- › Available in multiple formats and configurations.

#### Organising and structuring space

- › Wide range of coordinated furniture: credenzas, closed and open bookcases in various dimensions.
- › Can be used individually or combined for a neat, organized space.

### Elegance of lines and materials

- › Soft, rounded forms
- › Solid oak legs and handles
- › Customisable desks with coordinated drawer and modesty panel (optional)
- › Special attention to details and assembly

### Discreet electrification

- › Integrated top-access module aligned with desktop finish  
(except RK finish, top-access in black)
  - Single-access version on the side for desks
  - Double-access version at the center for meeting tables
- › Access to a structural cable trough for sockets and cable management
- › Electrified leg for cable management

### Executive offices

KARL enhances your executive offices with elegance and character, allowing a desk to be combined with coordinated storage for a neat and orderly space.

### Structuring spaces

KARL storage units can be combined to separate and structure spaces in a residential style.

### Meetings

Tables for small and large spaces, square or rectangular, accommodating up to 20 people. KARL offers electrification that is both practical and discreet for your meetings.

### Tailored storage

Combine open and closed units, different heights and widths. Multiple formats and configurations are possible.

## Zooms

◀ **Integrated top-access module**  
Single or double access to cable trough

▶ **Intermediate metal shelf**  
for optimising bookcase storage

◀ **Secure storage**  
doors and drawers with lock; solid oak round handles

## Options

◀ **Metal drawer**  
Compartment metalised and secured

▶ **Metal modesty panel**  
between legs for a neat finish

## TECHNICAL CHARACTERISTICS

EUROPEAN  
OFFICE  
FURNITURE  
MANUFACTURER

**Elegance**

Soft shapes combined with elegant materials (solid oak legs and handles)

**Coordinated furniture**

Choice of credenzas or bookcases, with and without storage, in various combinations

**Tables**

Square or rectangular, from 6 to 20 people

**Customisable**

Metal modesty panel and drawer (optional)

**Discreet electrification**

Soft-closing top access modules integrated into the tabletop. Cable routing integrated into the leg.

**Structural cable housing**

Allows cables to be routed below the worktop and down the legs

## Technical characteristics

### Desks and tables

#### Melamine desktops

- › 25 mm thick particleboard panels, melamine-coated, 2 decorative anti-reflective faces
- › Density: 600–670 kg/m³
- › ABS edges, 2 mm rounded, matching finish
- › Edges matched to the tabletop finish
- › 3 finishes available (see Shade Card)

- › Worktops from sustainably managed forests – **PEFC** certified
- › **Fire classification M3** (moderately flammable), in accordance with **NF EN 13501-1**
- › Panels certified E05 (formaldehyde emission control) with a maximum of 0.062 mg/m³ or a limit of 0.05 ppm, compliant with NF EN 717
- › Melamine panels compliant with ISO 22196, providing antibacterial properties
- › On average, 68% made from recycled materials (pre- and post-consumer);
- › 100% recyclable

#### Power & cable management

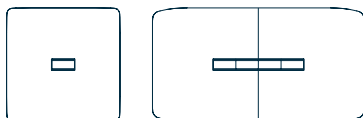

##### Plain top

- › Option to place or fix a power box on the tabletop
- › Only for rectangular desks and square tables

Single-access module

Double-access module

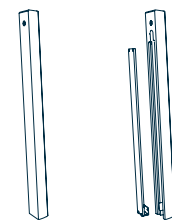

##### Top equipped with one or more integrated soft-closing modules

- › Top access module integrated into the tabletop with cover matched to the tabletop colour (except for black wood RK finish, top-access module in black). Aluminum edges.
- › Single-access top access module positioned on the right or left side for desks (D. 900 x 1800 / 2000 mm)
- › Double-access module positioned in the center for meeting tables
- › Deep structural troughs to hold power boxes (sold separately)

*See electrification options*

## Technical characteristics

#### Legs and structure

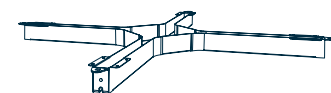

Standard

Cable-management leg

Individual desks

Meeting tables

### Legs

- › Legs in natural varnished solid oak (62x54 mm), equipped with adjustable glides ø 25 mm, recessed 3 mm, adjustment range 10 mm
- › Available as standard or cable-management legs (for versions with top-access module)
- › For desks or tables with hatch(es): 1 or 2 cable-management legs per table (depending on model), with screwed-in cable channel (4 standard cables)

### Structure

- › Metal frame 90 mm high, 2 mm thick, connecting the legs
- › Frame also serves as a cable trough to hold power boxes (sold separately)
- › Epoxy powder finish, 3 colors available: Pearl white ZC (RAL 1013), Reseda green ZG (RAL 6011), and Structured black ZP (RAL 9005)

### Structure fixing

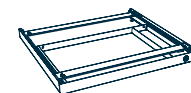

- › Legs and tops fixed to the frame with screws and metal inserts, making assembly and dismantling easy
- › Ensures excellent pull-out resistance (140 kg per insert under test conditions).

#### Options desks

### Modesty panel

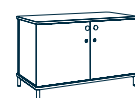

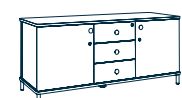

- › Steel sheet, 1 mm thick
- › Matches the desk structure
- › Securely fixed to the metal frame
- › Dimensions: H. 280 x W. 1525 / 1725 mm

### Drawer

- › For rectangular desk W. 1800 or 2000 mm
- › Steel sheet, 0.7 mm and 1 mm thick
- › Attached to the worktop by inserts, centred on the user side
- › Drawer slides on ball bearings
- › Equipped with a chrome lock
- › Overall dimensions: W. 626 x H. 48 x D. 530 mm
- › Useful dimensions: W. 470 x D. 329 x H. 26 mm + W. 84 x D. 277 x H. 25 mm

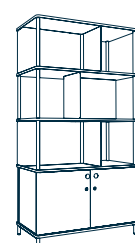

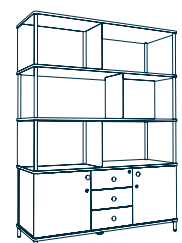

Storage units

**Credenzas W. 620 x D. 450 mm**

**2 models available:**  
Sideboard 2 doors W. 1000 x H. 620 x D. 450 mm  
Sideboard 2 doors + 3 drawers W. 1411 x H. 620 x D. 450 mm

- › 19 mm melamine **top**, light oak R1 finish
- › 19 mm melamine **shell** (depending on color chart)
- › **2 metal swing doors** with chrome lock (1 shelf per door unit)
- › **2 melamine shelves**, 19 mm thick, matching body
- › **3 drawers** with metal fronts, on ball-bearing slides, full extension, soft-closing (center of 1411 mm version), chrome lock securing all drawers. Drawer belt and base in black plastic.
- › **Round handles** in solid varnished oak
- › **Metal legs** ø25 mm coordinated with doors, with leveling glides (15 mm adjustment).
- › **Delivered assembled**
- › **Useful dimensions:**
  - Drawer : W. 328 x D. 328 x H. 110 mm
  - Swing door compartment: W. 455 x D. 385 x H. 492 mm

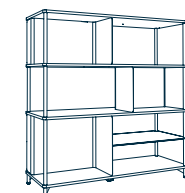

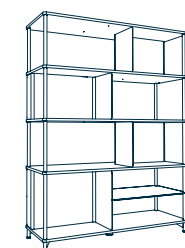

**Bookcases with storage units H. 1840 x P. 450 mm**

**2 models available:**  
Bookcase 2 doors + shelves W. 1000 x H. 1840 x D. 450 mm  
Bookcase 2 doors, 3 drawers + shelves W. 1411 x H. 1840 x D. 450 mm

- › 19 mm melamine **top**, light oak R1 finish
- › **Lower part:** see “sideboards”
- › **Bookcase section includes:**
  - 3 shelves, 19 mm thick, matching top
  - 3 steel dividers, 1 mm thick, color matched to doors – W. 597 x D. 429 x H. 387 mm
  - Tubular uprights ø25 mm for shelf fitting (color matched to doors)
- › **Load per melamine shelf:** 30 kg  
Evenly distributed, heavy loads at bottom
- › **Delivered assembled for lower part; shelves and upper structure to be assembled by customer**
- › **Useful dimensions:** see plans  
Height between 2 shelves: H. 387 mm

See safety instructions and assembly guide

Storage units

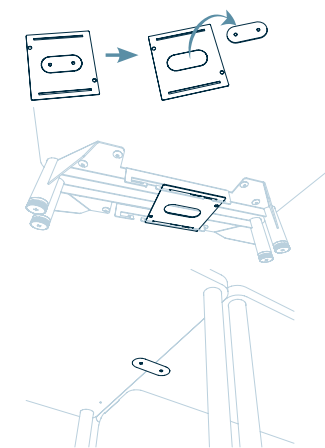

**Bookcases W. 1411 mm x D. 450 mm**

**3 models available:**  
Bookcase 2 levels W. 1411 x H. 1030 x D. 450 mm  
Bookcase 3 levels W. 1411 x H. 1435 x D. 450 mm  
Bookcase 4 levels W. 1411 x H. 1840 x D. 450 mm

- › 19 mm melamine **top and shelves**, light oak R1 finish
- › **Steel dividers**, 1 mm thick, color matched to uprights  
Dimensions: W. 597 x D. 429 x H. 492 mm (bottom)  
Dimensions: W. 597 x D. 429 x H. 387 mm (upper)
- › **1 welded steel shelf** 1 mm thick, positioned bottom right of divider
- › **Tubular uprights** ø25 mm (color matched to dividers)
- › **Metal legs** ø25 mm with leveling glides (15 mm range)
- › **Load per melamine and metal shelf:** 30 kg  
Evenly distributed, heavy loads at bottom
- › **Delivered assembled for lower part; shelves and upper structure to be assembled by customer**
- › **Useful dimensions:** see plans

See safety instructions and assembly guide

Linking kit (included in each storage units exept credenzas)

**Linking kit**

In 1.5 mm steel sheet, epoxy powder finish (color matched to structure). Allows 2 units to be joined.

- › **Linking part** made of 2 separable pieces
- › Can be positioned at 2 levels for perfect alignment:
  - 1 piece fitted between 2 legs under the unit (tool-free) – Dim. 119 x 113 mm
  - 1 piece screwed between 2 shelves (bookcases only) – Dim. 29 x 69 mm

See possible configurations in the Synoptic Plans & Dimensions section

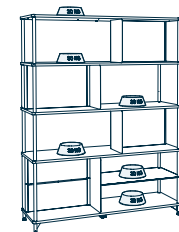

## Technical characteristics

### /!\ Safety instructions

For safety and to prevent tipping, all bookcases should be secured to the wall (from 110 cm).

If wall mounting is not possible, secure them to the floor.

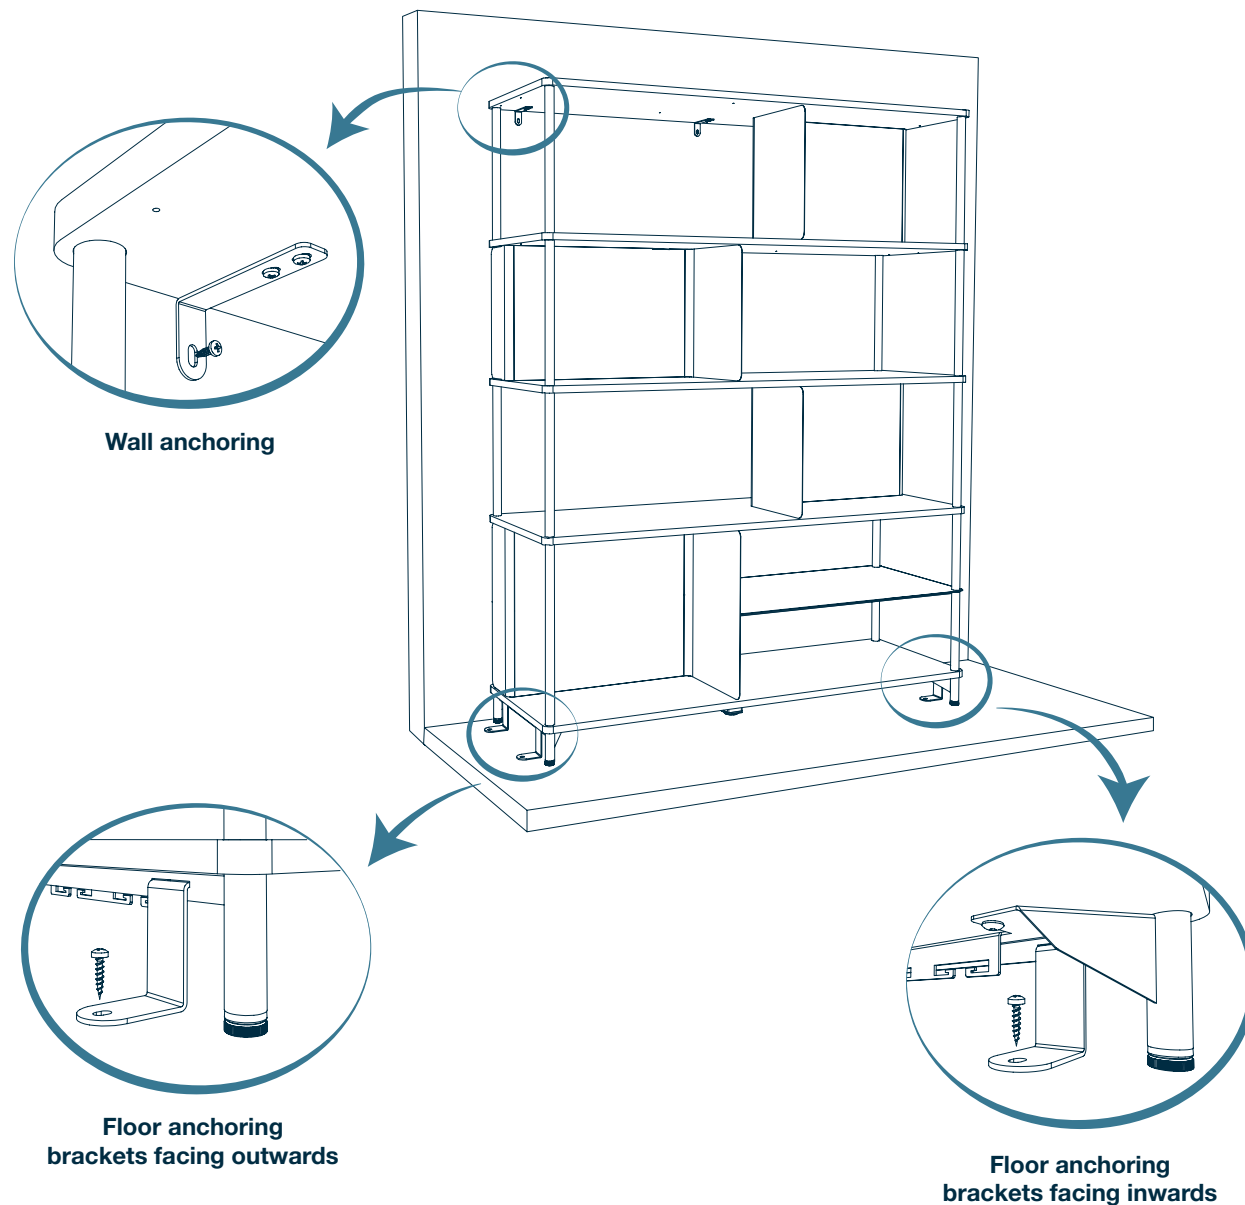

- › Wall and floor fixings are included with all bookcases. Screws and plugs are not supplied; select them according to the wall or floor type.
- › Each shelf can support a maximum load of 30 kg, evenly distributed.

Max. 30 kg/shelf

Do not climb

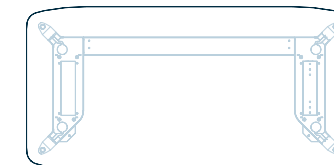

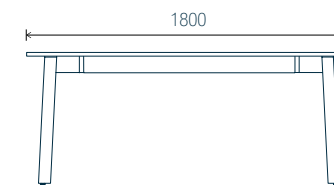

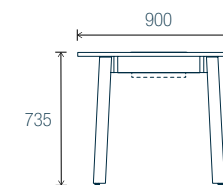

\*See assembly instructions

(2) Density: Tolerance +/- 10%

Made in France

Designed by our Design Studio and manufactured in France, in our Normandy factories

The E05 class (formaldehyde emission control) imposes a maximum of 0.062 mg/m³ or a limit of 0.05 ppm, in compliance with the NF EN 717 standard, thereby ensuring the lowest permitted level for construction and furniture materials.

Antibacterial surface guaranteed for all melamine tops

All components guaranteed 5 years under normal use

67 % of this range made from recycled materials
