

Estelle

A MOBILE TIERED SEATING MODULE FOR A RANGE OF USES

The ESTELLE tiered seating module is perfect for informal meetings and brainstorming sessions. The fun, practical module offers three levels of bench seating and is easy to move around thanks to the rear castors.

The sturdy steel structure gives a trendy, industrial feel and provides a convenient hand-hold for manoeuvring.

What's more, the bench seats are made from melamine offcuts from our factories, making this an eco-friendly choice.
